

Take The Next Step in Your Welding Inspector Career

Are you an inspector who is certified to only one code endorsement? Maybe it's time to look into adding more certifications to your list. This will enable you to expand your career options and help you gain the experience and knowledge you've always wanted. Welding inspectors can hold as many code endorsements as they wish, and they can add additional endorsements at any time.

CWB Group offers a variety of code endorsement examinations. The cost to write the exam is only \$65 (+ taxes) but the added value you'll gain is worth a lot more. Remember, all code endorsement exams are open book.

Take a look at some of the code endorsements available to see if any would be in your future:

Product Category	Standard/Code
Steel Buildings, Bridges, Industrial Structures, Machinery, Cranes, Rail and Road Vehicles	CSA W47.1: Certification of Companies for Fusion Welding of Steel, and CSA W59: Welded Steel Construction (Metal Arc Welding)
Ships and Floating Marine Structures	ABS: Requirements for Materials & Welding And Nondestructive Inspection of Hull Welds
Industrial Pipe	ASME B31.3: Process Piping
Pipelines	CSA Z662: Oil and Gas Pipeline Systems
Pressure Vessels, Boilers and Heat Exchangers	ASME Boiler and Pressure Vessel Code, Sections VIII-Div.1 & IX
Storage Tanks	API 650: Welded Steel Tanks
Aluminum Buildings, Bridges, Industrial Structures, Machinery, Cranes, Rail and Road Vehicles (NEW!)	CSA W47.2: Certification of Companies for Fusion Welding of Aluminum, and CSA W59.2: Welded Aluminum Construction

Contact us today to book your exam and you'll soon be reaping all the benefits.
