The CWB offers the most comprehensive and flexible methods of learning for welders, supervisors, inspectors and engineers in the welding industry. The system consists of 39 modules covering a full range of welding related topics from health and safety to design of welded connections.

The MLS certificate programs are designed for home study as well as classroom format. In Canada and other countries around the world, welding personnel use these programs to upgrade their welding knowledge. Upon successful completion of the examinations, the MLS student receives a Certificate of Achievement. These certificates are recognized by the Canadian Welding Bureau as meeting the requirements of certain CSA certification standards.

MODULE TOPICS

1. Welding Health and Safety
2. Engineering Drawings, Basic Joints and Preparation for Welding
3. Symbols for Welding
4. Welding Processes and Equipment
5. Power Sources for Welding
6. Electrodes and Consumables
7. Residual Stress and Distortion
8. Basic Metallurgy and Material Specification
9. Introduction to Welding Metallurgy
10. Weld Faults and Causes
11. Basic Inspection Technology
12. Mechanical Testing of Welds
13. Codes and Standards
14. Basic Concepts of Quality
15. Functions of the Inspector
16. Techniques of Visual Inspection
17. Surface Inspection
18. Radiographic Inspection
19. Ultrasonic Inspection
20. Structure and Properties of Metals
21. Welding Metallurgy of Steels
22. Welding Metallurgy of Stainless Steels
23. Welding Metallurgy of Non-ferrous Metals and Cast Iron
24. Basic Metallurgy and Welding Metallurgy of Aluminum
25. Metal Preparation and Welding Processes for Aluminum Alloys
26. Alternative Joining Methods for Aluminum
27. Quality Issues in Aluminum Welding
28. Designing with Aluminum (Corrosion, Strength And Fatigue)
29. Design of Welded Aluminum Connections
30. General Design Considerations for Welding
31. Flexible Connections
32. Moment Connections
33. Welded Trusswork
34. Miscellaneous Structural Welding Design
35. Fracture-Fundamentals
36. Fracture-Applications
37. Fatigue-Fundamentals
38. Fatigue-Applications
39. Weld Mechanics

Ordering Information:

1. Order by phone, fax or mail.
2. Payment must accompany order.
3. All associated charges such as customs duties and fees are the customer's responsibility.
4. Please allow 10 business days for delivery.
5. A company or organization purchasing one or more sets of modules applicable to a certificate program, must include the names of the designee(s) for the issuance of student ID numbers.
6. Return policy: Product must be returned within 30 days from date of purchase in re-saleable condition. A 25% restocking charge will apply. Shipping and handling charges are non-refundable.
