

Just like MaJIC...Your Welding Problems Solved

The CWB Group has teamed up with MaJIC (Materials Joining Innovation Centre) to provide additional services to our clients. MaJIC has the expertise of Northern College in welding technology and is known throughout the welding community for quality services. They can respond quickly and accurately to ensure your business moves smoothly.

Some of their services include:

- Analysis (chemical, coating thickness, failure, etc.)
- Consulting (access to government funding, literature research, weldability studies, etc.)
- Testing (creep, fatigue, hardness, jointed materials, etc.)

For our clients, this partnership provides the extra welding, safety, and materials knowledge that is needed to improve production and efficiency.

Find out today how MaJIC can help you and your business.
