

RADIOGRAPHIC FILM INTERPRETATION

Get Recognized.

Take charge!

Greater career opportunities!

This course is your first step to becoming an Industrial Radiographer.

This three day course (24 hours), will provide participants with a basic understanding of radiographic film imaging, types of imaging equipment and film processing along with the use of industrial standards, specifications and procedures used to define and interpret radiographic image data.

The course is designed for engineers, technologists, QA/QC inspectors and other personnel who wish to gain an understanding of the interpretation of radiographs.

INTEG advantage: "pract-Ability+Plus" Understanding the variables for technique & procedure development.

As part of our practical classroom training, students will practice viewing representative film samples demonstrating familiarity with interpretation and the evaluation of actual flawed radiographic product to standard references and specifications.

What's Involved and What do I Receive?

World-class teaching and knowledge from our instructors who are recognized experts in their respective disciplines with extensive industrial hands-on experience as well as academic capabilities.

- An opportunity to network with other industry professionals
- Upon successful completion of the course the participant will receive a Certificate and an Examination Transcript (A passing grade of 70% along with full attendance is required)
- Current QCC members receive a 10% discount on course fees

The following topics will be covered:

- Film Imaging Equipment
- Film processes , development and darkroom procedures
- General Assessment, Radiographic Images (Isotopic & X-ray)
- Interpretation of discontinuities & defects per Radiographic Specifications

A training workbook is provided to each participant, daily material is supplemented with class room assignments and tests. This will allow both the participant and instructor to monitor progress and prepare for the final closed book examination held on the final afternoon of the course.

Course Entry Pre-Requisites

- High school diploma or equivalent and
- Must be at least 18 years of age
