**Be in Demand-Stay
Ahead.**

This ten-day course (67.5 hours) is designed for Welding Inspectors who want to increase their knowledge of metallurgy, inspection and testing techniques. This is your first step to advancing your career and increasing your earning potential.

What's Involved and What do I Get?

- World-class teaching and knowledge from our CWB instructors
- An opportunity to network with other welding professionals
- Lunch and refreshments each day of the course
- Upon successful completion of the course the participant will receive a Certificate and an Examination Transcript (70% passing grade is required)

Successful completion of the course and module examinations will exempt you from the “closed book” theory examination of the Level 1 Welding Inspector certification examinations. (Please note that all certification exams must be completed within 1 year of application). The opportunity to write the CSA W178.2 examinations is available during Day 10 of the course - application forms (Forms 450 & 455) must be submitted to the CWB prior to the course start date in order to be eligible to write the certification exams.

The following topics will be covered:

- Welding Health & Safety
- Basic Joints, Blueprint Reading
- Symbols for Welding
- Welding Processes & Equipment
- Electrodes and Consumables
- Basic Metallurgy and Material Specifications
- Weld Faults and Causes
- Basic Inspection Technology
- Codes and Standards
- Functions of the Inspector
- Techniques of Visual Inspection
