

WELDING SUPERVISOR Seminar – Steel

Another CWB GROW YOUR CAREER Opportunity

EDMONTON, ALBERTA

**Understand Weld
Quality and How to
Prevent Defects**

**Effectively Oversee
Welding Operations**

**Understand
Certification**

**Gain Recognition
from Your Peers**

This five day course is designed for Welding Supervisors who want to increase their knowledge of managing a Certified welding shop. This course is also of interest to engineers, shop foreman, quality assurance personnel or others who wish to understand basic weld quality control and the requirements of certification.

THIS COURSE IS FOR YOU!

What's Involved and What do I Get?

- World class teaching and knowledge from our CWB instructors.
- The opportunity to complete all 5 examinations required to be a Qualified Welding Supervisor during the course.
- A certificate of completion and exam transcript.
- An opportunity to network with other welding professionals.
- Lunch and refreshments each day of the course.

An opportunity to write the following examinations required to become a Qualified Supervisor:

- CSA Standard W47.1 (open-book examination)
- CSA Standard W59 (open-book examination)
- Welding Symbols
- Weld Faults
- Quality Control & Inspection Methods

What's Covered?

The following topics of study are covered:

- CSA Standard W47.1 – understand the requirements for shop certification, welder testing and procedure testing.
- CSA Standard W59 – understand the requirements of “pre-qualification” and inspection of welded product, plus a review of general fabrication practices – electrode storage, base metal preparation, joint tolerances, etc. A special “workshop” to review real world applications and the use of the standard.
- Welding Symbols – an overview of how to interpret weld symbols, a critical element of weld quality control.
- Weld Faults– a review of weld faults and how to identify and prevent them.
- Quality Control & Inspection Methods – a review of quality control practices related to welding and an overview of common inspection methods.
- Welding Procedure Data Sheets – how to read, prepare and use this essential tool in the weld shop.

Pre-Requisites

- There are no prerequisites for this course.
- Please note: CSA Standards W47.1:2003 and W59:2003 are required to be brought to the course for use in the open-book examinations.
