

WELDING SUPERVISOR Seminar – Steel

Another CWB GROW YOUR CAREER Opportunity

EDMONTON, ALBERTA

**Understand Weld
Quality and How to
Prevent Defects**

**Effectively Oversee
Welding Operations**

**Understand
Certification**

**Gain Recognition
from Your Peers**

This five-day course (37.5 hours) is designed for Welding Supervisors who want to increase their knowledge of managing a Certified welding shop. This course is also of interest to engineers, shop foreman, quality assurance personnel or others who wish to understand basic weld quality control and the requirements of certification.

What's Involved and What do I Get?

- World-class teaching and knowledge from our CWB instructors
- An opportunity to network with other welding professionals
- Lunch and refreshments each day of the course
- Upon successful completion of the course the participant will receive a Certificate of Attendance and an Examination Transcript

An opportunity to write the following examinations required to become a Qualified Supervisor is included for the following:

- CSA Standard W47.1 (open-book examination)
- CSA Standard W59 (open-book examination)
- Welding Symbols
- Weld Faults
- Quality Control & Inspection Methods

The following topics will be covered:

- Requirements for shop certification, welder testing and procedure testing
- Requirements of “pre-qualification” and inspection of a welded product
- An overview weld symbols, weld faults-how to identify and prevent them
- Quality control practices related to welding and common inspection methods
- Welding Procedure Data Sheets – how to read, prepare and use them in the weld shop

Pre-Requisites

- There are no prerequisites for this course
- Please note: CSA Standards W47.1:2009 and W59:2003 are required to be brought to the course for use in the open-book examinations
